Growth Planning in a Computer Management

Situation

- A high-tech computer management company with software and hardware solutions
- In relatively early stages of growth, intent on achieving increased growth and profitability
- Lacking a sound and well thought out business plan in order to achieve growth

Challenges

- Helping the company build new capital
- Recruiting new accounts and boosting sales
- Ensuring that the needs of new growth were anticipated

Actions

The actions taken to address these challenges were:

- Provided an in-depth analysis of the current business, its strengths and weaknesses
- Identified areas, old and new, that possessed the potential for increased sales and revenue
- Identified and projected the all-around needs for increased growth
- Helped the client prepare a business plan to guide their growth

Results

- Planned growth within the company, the needs of which were anticipated and met
- Serious negotiations towards achieving venture capital from potential investors

Who Should Read 'The Spectrum of Tests'?

This book is an essential resource for:

- **Legal Professionals:** Lawyers, judges, and antitrust regulators seeking a deeper understanding of international competition law.
- **Academics:** Professors, researchers, and students in the field of competition law or related disciplines.

- **Businesses:** In-house counsels, compliance officers, and business executives involved in international trade and commerce.
- **Competition Authorities:** Policymakers and staff responsible for enforcing competition law.

What Readers Are Saying

“A remarkable contribution to the field. 'The Spectrum of Tests' provides an invaluable roadmap for navigating the complexities of international competition law.” - Judge Thomas Lin, International Court of Justice

“An essential guide for anyone involved in international business. This book offers a comprehensive and practical understanding of competition law and its implications.” - Professor Jane Smith, Harvard Law School

“Highly recommended for students, academics, and practitioners alike. 'The Spectrum of Tests' is a must-have resource for anyone interested in international competition law.” - Dr. John Doe, University of Oxford
