The Self in History: Oxford Philosophical Concepts is a comprehensive and authoritative guide to the history of the philosophical concept of the self from antiquity to the present day.

Written by a team of leading international scholars, the book covers all the major themes and debates in the history of the self, including:

- The nature of the self
- The self and others
- The self and morality
- The self and knowledge

The Self in History is an essential resource for anyone interested in the philosophy of the self. It is a valuable addition to the libraries of philosophers, historians, and scholars in related fields.
